Emergency Preparedness Plan, Comprehensive Emergency Management Plan, & Fire Plan

Dear Reader,

Seneca View Nursing Facility reviews its Emergency Preparedness Plan (EPP), Comprehensive Emergency Management Plan (CEMP), and Fire Plans/Procedures annually.

These plans/procedures can be reviewed in our Administrative Suite upon request.

These plans assess the risk of events like fire, tornado, blizzards, flooding, air quality, power outage, loss of water, and more. We review these annually to make sure that they address the most important areas of risk, allowing us to plan appropriately to respond to them, and to thoroughly educate our staff and residents where needed.

Throughout the year, we also complete emergency disaster drills, fire and life safety drills as part of our emergency management plan. We conduct bi-annual emergency disaster drills with the Southern Tier Mutual Aid program, and consult with Cayuga Health System emergency management team for required updates and implementation of services.

We share our plans with key partners of Cayuga Health System.

If you have any further questions, please contact the Administrator at Seneca View Nursing Facility at 607-535-8611 ext. 52257

Sincerely,
Richard Sweet-Keech, LNHA, MSHA, MAOL, BBA, LSSGB
